

Home Solar _Floor lamp

Bollard lamp ideal for outdoor use and available in two models: low and high. It has a dark gray or corten painted die-cast aluminum frame and a transparent polycarbonate diffuser. Home Solar is mains-independent and fitted with a solar panel, dusk diffuser. Home Solar is mains-independent and fitted with a solar panel, dusk sensor, motion sensor and stake for installing it directly in the ground. The lamp sensors are controlled by two switches: when the dusk sensor is active and detects an ambient brightness of less than 150 Lux, the lamp switches on at 50% of its intensity. When the motion sensor is active and detects movement, the lamp switches on at full power, and then dims its intensity to 10%. A weighted base offering increased stability can be purchased separately.
