Via Del Sale

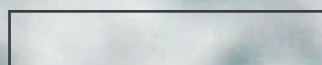

Le saline di Cervia, custodi di una storia millenaria, nascono dall'incontro continuo tra mare e terra, dove l'acqua si muove lenta lasciando tracce minerali nel suo passaggio. Da questo equilibrio nasce **Via del Sale**: una collezione che cattura e cristallizza quei riflessi, trasformando la materia ceramica in superficie vibrante. Bagliori lucidi e inclusioni materiche evocano il sale come elemento prezioso, incastonato nella luce.

*The Cervia salt pans, guardians of a thousand-year-old history, are born from the continuous encounter between sea and land, where water moves slowly, leaving mineral traces in its wake. From this balance comes **Via del Sale**: a collection that captures and crystallizes those reflections, transforming ceramic matter into a vibrant surface. Glossy gleams and material inclusions evoke salt as a precious element, set within the light.*

*Les salines de Cervia, gardiennes d'une histoire millénaire, naissent de la rencontre continue entre la mer et la terre, là où l'eau avance lentement, laissant des traces minérales sur son passage. De cet équilibre naît **Via del Sale**: une collection qui capture et cristallise ces reflets, transformant la matière céramique en une surface vibrante. Des éclats brillants et des inclusions matérielles évoquent le sel comme un élément précieux, enchâssé dans la lumière.*

*Die Salinen von Cervia, Hüterinnen einer tausendjährigen Geschichte, entstehen aus der fortwährenden Begegnung von Meer und Land, dort, wo sich das Wasser langsam bewegt und auf seinem Weg mineralische Spuren hinterlässt. Aus diesem Gleichgewicht entsteht **Via del Sale**: eine Kollektion, die diese Reflexe einfängt und kristallisiert und keramische Materie in eine vibrierende Oberfläche verwandelt. Glänzende Lichtreflexe und stoffliche Einschlüsse lassen Salz als kostbares Element erscheinen, eingebettet ins Licht.*
